

Elementary School Teacher

A KIS education centers on inquiry and applied learning principles. We seek teachers who are excited to join a faculty who collaborate to create relevant learning opportunities. As an international school, cultural competency is essential to our community. And just as our teachers support student growth, KIS encourages faculty members to engage in professional development that grows their vocation. KIS works to continually improve the educational experience and benefits from the knowledge and ideas all faculty members contribute.

KIS elementary school educates the whole child, believing each day holds potential for growth. Elementary teachers nurture responsive classroom relationships by opening and closing the school day in community. Teachers work within grade levels to create relevant transdisciplinary learning experiences, and provide quality instruction, feedback, assessment, and differentiation to meet students where they are. Teachers connect with colleagues, parents, and school counselors to ensure the academic and social-emotional support of all students. Our elementary school environment is safe, inclusive, and vibrant.
